HUNTER & CO. WORKFLOW CONSULTING LLC

Enterprise catalog audit pilot order

Deep enrichment and search-conversion audit of one buyer-authorized catalog export.

PILOT FEE	AUDIT VOLUME	DELIVERY
$1,500 USD upfront	Up to 1,000 SKU rows	5 business days

Buyer legal name

PO / master agreement ID (if any)

Buyer reviewer name and email

Billing email and receiving jurisdiction

Source file, version and proposed row count

Approved file transfer route

Agreed attributes (up to eight) or attached field map ID

Agreed search terms / filter paths (up to three) or brief ID

What your team receives

Supply one CSV or XLSX, the target taxonomy, allowed values or units and authorized reference sources. We check each row for missing attributes, inconsistent units, duplicate candidates and categories that fail to map.

You receive an editable, source-linked enrichment worksheet and exception queue reconciled to the input row IDs. For up to 10 example rows, we show the original value, proposed correction and source, or mark it for review.

For each agreed search or filter path, we identify which records the supplied fields would omit or misclassify. A prioritized production scope ranks the fixes by affected row count. Live store changes and conversion measurement require a separate order.

Payment, start and acceptance

Both parties sign and confirm the staffed start date below. HWC then issues a payment request for the $1,500 fee plus any applicable tax. Work starts on the agreed date after payment clears and agreed files arrive. If either is late, the parties confirm a revised date. Delivery is due within five business days of the actual start.

Within five business days after delivery, the reviewer accepts by email or sends one list of row IDs and unmet checks. HWC corrects in-scope errors at no charge and returns the file for written acceptance.

Credit toward production

If both parties sign a full enrichment order within 14 calendar days of audit delivery, HWC credits the full $1,500 pilot fee once against that order. Standard enrichment is $1.25 to $1.50 per SKU. Production scope, pricing and schedule require a separate signed order.

Co-op funding diagnostic. We allocate scoped rows and proposed fees by brand and flag evidence gaps against any written program rules you supply. The manufacturer decides eligibility and payment.

Confirmed staffed start date

Agreed scope attachment or other approved reference (if any)

The buyer confirms it can share the agreed sources. Any master agreement identified above applies. Both parties sign and return a copy using the email below.
